

iV infusion

ELITE iV'S

immunity

b complex + vitamin c + zinc

Immune support is excellent for anyone who wants to prevent illnesses such as the cold and flu. It also helps with recovery time if you become ill with a cold or flu.

myers pro

b12 + b complex + calcium gluconate + magnesium + L-aurine + vitamin c + zinc

Great for the overall health and wellbeing of the guest. This cocktail helps with headaches, muscle cramps, allergies, depression, cold and flu, boosts energy levels, and much more!

#illneverdrinkagain

b complex + L-aurine + magnesium + mineral blend + zofran

Created as the quintessential hangover formula that will rejuvenate anyone's "last night" experience.

beautify

biotin + glutathione + vitamin c

Designed to focus on promoting the health of your skin, hair, and nails. This is especially helpful for patients who want the ultimate improvement in how they look and feel.

supa gluta

high-dose glutathione

Potent antioxidant with the ability to boost immunity and energy along with aiding in the decrease of symptoms in many cardiac and nervous system disorders.

hi-C

saline + high-dose vitamin c

Vitamin C is essential for the growth, development, and repair of body tissues. It's involved in body functions, including formation of collagen, absorption of iron, the immune system, wound healing, and the health of cartilage, bones, and teeth.

quickslim pro - PS

b12 + b complex + bi-amino + biotin + glutathione + glycine + L-carnitine + lysine + taurine

Designed to aid with weight loss and improve exercise performance. L-carnitine is a naturally occurring amino acid that helps the body turn fat into energy, improves exercise tolerance, and enhances metabolism.

PREMIUM iV'S

alleviate

b12 + b complex + calcium gluconate + magnesium

Formulated for those that want to avoid, reduce, or wipe out menstrual cramps, gastric health, and help with GI health.

brain power

b12 + b complex + L-aurine + magnesium + vitamin c

Created to enhance daily cognition to help enhance everything from day-to-day tasks to higher level cognitive functions.

energize

b complex + glycine + L-aurine + lysine + bi-amino

The energize infusion gives you the boost of energy that you need to live life at the fullest, help burn fat, and stay healthy.

pregame

b12 + b complex + calcium gluconate + glutathione + magnesium + taurine + bi-amino + vitamin c + zinc

Can help support or boost ability to enhance athletic performance and post-partying recovery.

zen

b12 + b complex + glycine + magnesium + zinc + taurine + vitamin c

Can help support the body's ability to decrease anxiety and increase the ability to relax.

athletic recovery

b complex + bi-amino + glycine + lysine + mineral blend + vitamin c

Created for athletes to replenish everything their body needs postgame, athletic recovery will do it!

re-hydrate

b complex + magnesium + mineral blend + vitamin c

Designed to maximize your hydration while giving your body the minerals and vitamins to boost your energy.

myers

b12 + b complex + calcium gluconate + magnesium + vitamin c

The Gold Standard for anything that bothers you! The original blend created by Dr. Myers that stands the test of time.

quickslim

b12 + b complex + bi-amino + biotin + glutathione + glycine + lysine + taurine

Formulated to support and enhance your body's metabolism.

bi-amino

Helps the liver, fights fatigue, and reduces muscle breakdown.

semaglutide

semaglutide - PS

Semaglutide is an FDA-approved prescribed injection to help people medically manage their chronic weight. For the principles of weight loss, the GLP1 agonist works in the body by causing delayed gastric emptying, thus, increasing the sensation of "fullness" and decreasing appetite/cravings. This is an excellent option for guests with a BMI of 27 or higher that suffer from weight-related health issues.

benefits:

- boosts weight-loss
- decreases cravings
- lowers appetite
- increases sensation of fullness
- slows gastric emptying
- regulates blood sugar

how it works:

Prescribed injections are administered one time a week. Dosing increases are at the discretion of the medical provider and guest weight loss achievements and side effects.

common side effects may include:

Nausea, diarrhea, vomiting, constipation, headache, fatigue, dyspepsia, dizziness, abdominal pain, flatulence, gastroenteritis, GERD, gastritis, alopecia, injection site reaction.

for medically managed weight loss

Guests report an average weight reduction of 15%. After reaching your goal, continued use will help you maintain your weight.

iCRYO offers two payment options: a month-to-month pass and a 12-week Pay-In-Full (PIF) option for those seeking a longer-term commitment.

recommendations:

The recommended initial period is a 5-month process to hit your weight loss goals.

maintenance program:

Guests may continue with a maintenance semaglutide plan until achieving their desired weight.

All iV's, Boosters & iM Shots are available in Single, 5pk, 10pk, 15pk, 20pk

NAD+ Therapy

NAD+ Therapy - PS

NAD+ is found in every cell in your body and aids in rejuvenating the age and health of a person. It works by improving the cellular processes at the mitochondrial level within the cell.

benefits:

- brain function
- anti-aging properties
- better sleep
- reduces depression
- improves stress
- boosts energy

recommendations:

We recommend you receive a Myers or similar infusion on the day of your consultation to optimize your nutritional status prior to NAD+ Therapy.

NAD+ load up #1

5 consecutive days of NAD+ followed by a maintenance program.

maintenance programs:

- One NAD+ per week
- One NAD+ bi-weekly
- One NAD+ per month

NAD+ load up #2

5 consecutive weeks (1/wk) of NAD+ followed by a maintenance program.

dosage levels:

iV INFUSION

- 250mg
- 500mg
- 750mg
- 1,000mg

iM SHOT

- 100mg

Ozone UV iV Therapy

Ozone UV iV Therapy is the act of drawing your blood, injecting it into a bag of saline, mixing it with ozone (O₃), and administering it back into the body through an iV. As the blood passes through the iV, it is treated with UV light to destroy bacterial, fungicidal, and virucidal pathogens before it returns to your body, further enhancing the immune system.

benefits:

- enhances immune system
- decreases chronic pain
- body detoxification
- increases blood circulation
- Improved nutrient distribution
- better sleep

recommendations:

Five consecutive weeks (1 x week) of Ozone UV iV Therapy followed by a maintenance program.

maintenance program:

One Ozone UV iV Therapy treatment a month, maximum frequency every 14 days.

dosing:

LOW DOSE SINGLE iV

12,600 mcg of ozone (O₃) and one pass through the enhanced UV light system.

NEW! HIGH DOSE SINGLE iV

70,000 mcg of ozone (O₃) - almost six times more ozone and two passes through the enhanced UV light system.
